 7:00 to 7:07 Reading Comprehension
 7:07 to 7:15 Grammar lecture, using the passage below.
 7:15 to 7:25 Math lecture, also using this same passage.
 7:25-7:30   We do 1st question/problem from each online worksheet together, then you finish the online activities from all lectures individually on the classroom computers.
Mathematics work online and/or in books from 7:45 until 8:45.

7:00-7:07: **Reading Comp.**:

      Today's Passage:
   "The term **New Deal** derives from Franklin Roosevelt's 1932 speech accepting the Democratic Party's nomination for president. At the convention Roosevelt declared, "I pledge you, I pledge myself, to a new deal for the American people." Though Roosevelt did not have concrete policy proposals in mind at the time, the phrase "New Deal" came to encompass his many programs designed to lift the United States out of the Great Depression.**"** *(Today's reading comes from*

Are there any Grammatical errors in this passage?

7:07-7:15   Grammar: **Review plural nouns**

Rules: most words that end in the letter 'f' have the plural 'ves'
For example: one wolf, two wolves;   one elf, two elves

Please **write** one sentence using an f-ves word.
For example: One elf appeared yesterday, then more elves joined us today!

Let's do the first question from our grammar activity:
https://www.khanacademy.org/humanities/grammar/parts-of-speech-the-noun/irregular-plural-nouns-base-plurals-and-irregular-endings/e/irregular-plural-nouns--f-to--ves

7:15   Mathematics Topic: Area of a Circle

$$A_{circle} = \pi r^2$$

So if we know the diameter, we know the radius, and if we know either the radius or the circumference (since $C=\pi d$), then we can figure out the Area of the circle.

(Let's see if we have time to watch a video on the relationship between the area of a rectangle and the area of a circle:
https://learnzillion.com/lesson_plans/9068-find-the-area-of-a-circle/)

Now, let's do the online math practice problem together:

Day 35:

8:40   ***Exit Questions***:   1. What is the formula for the area of a circle?
                                    2.   What is the formula for the area of a rectangle?

8:45   Turn in Exit Slip,   Dismissal
